**BEIJING
FORESTRY
UNIVERSITY**

Beijing Forestry University, established in 1952, holds a distinguished status as a national key university directly administered by the Ministry of Education. It's jointly supported by the Ministry of Education, the National Forestry and Grassland Administration, and the Beijing Municipal Government.

Firmly rooted in biology and ecology, Beijing Forestry University boasts unique disciplines, including forestry, landscape architecture, ecology and nature conservation, grass science, and agro-economic management. Our commitment extends to fostering balanced and harmonious development across various fields, encompassing agriculture, science, engineering, management, economics, law, philosophy, education, and the arts.

Beijing Forestry University is building strong international partnerships through direct student and faculty engagement, collaborative projects, and scholarship that spans traditional boundaries. We proudly host students pursuing undergraduate, graduate, and non-degree programs from approximately 70 countries. Our enduring commitment lies in creating a welcoming environment for international students and scholars who enrich our academic landscape with diverse perspectives and innovative ideas.

We offer 18 English-taught graduate (master's and doctoral) programs and 93 Chinese-taught programs. These programs have a duration of 2 to 5 years, and graduates who meet all the requirements specified in the national degree-granting regulations will be awarded degrees.

Join us at Beijing Forestry University and become part of a vibrant academic community that values global diversity and innovation, nurturing a brighter future for all.

北京林业大学创建于1952年，是教育部直属、教育部与国家林业和草原局共建的全国重点大学，是国家首批“211工程”重点建设高校和国家“优势学科创新平台”建设项目试点高校，是国家“双一流”建设高校。北林在1952年首次招收国际学生，是中国最早接受国际学生的学院之一。

学校以生物学、生态学为基础，以林学、风景园林学、林业工程、草学和农林经济管理为特色，是农、理、工、管、经、文、法、哲、教、艺等多门类协调发展的全国重点大学。

我校向国际学生开放的研究生（硕博）专业有18个英文授课项目，93个中文授课项目。学制2-5年，完成学业、符合国家学位授予条例各项要求的毕业生将获得学位。

The university's interdisciplinary environment has been essential to my doctoral work. By taking classes across different schools, I can integrate diverse expertise directly into my research in integrating layers of intelligence for ecological resilience and landscape restoration. Coupled with a collaborative and supportive community—from professors and staff to fellow students—creates the perfect atmosphere for groundbreaking research and personal growth.
